

THE
TORONTO.
ALMANAC
AND
CANADA
CALENDAR
FOR
1842.

Toronto:
PRINTED, PUBLISHED, AND SOLD,
By EASTWOOD & Co., YONGE STREET.

CUSTOMARY NOTES.

1. Venus (ϕ) will be Morning Star until March 5th, then Evening Star until December 18th, then Morning Star until October 2d, 1843.

2. The Moon will run highest this year about the 20th degree of Gemini, (Π) and lowest about the 20th degree of (\uparrow) Sagittarius.

3. Latitude of Herschel (H) $45^{\circ} 27''$ south in the middle of this year.

4. Longitude of the Moon's Ascending Node, (Ω) in the middle of this year, 9 signs, 21 degrees.

5. Mean obliquity of the Ecliptic in the middle of this year, $23^{\circ} 27' 35, 4''$. True obliquity, same time, $23^{\circ} 27' 38, 3''$.

Roman Indiction,	15	Trinity Sunday,	May 22
Julian Period,	6555	Advent Sunday,	November 27

EQUINOXES AND SOLSTICES.

		D.	H.	M.
Vernal Equinox,	March	20	7	17 Evening.
Summer Solstice,	June	21	4	26 Evening.
Autumnal Equinox,	September	23	6	30 Morning.
Winter Solstice,	December	21	11	59 Evening.

ECLIPSES IN THE YEAR 1842.

There will be five Eclipses this year; three of the Sun and two of the Moon.

I. There will be an Eclipse of the Sun on the 11th of January, at 11h. 19m. in the morning, invisible in America except about Cape Horn.

This Eclipse will be annular at the South Pole, and will be visible in the surrounding dreary regions for fifteen hundred miles in every direction. At the Cape of Good Hope and Cape Horn, an Eclipse may be seen on the Sun's southern limb. Magnitude at the former place, 8.98. digits: The Eclipse will be central and annular on the meridian in longitude $57^{\circ} 28'$ west from Greenwich, and latitude $82^{\circ} 41'$ south.

II. There will be an Eclipse of the Moon on the 26th of January, at 0h. 54m. in the afternoon, consequently invisible to us.

III. There will be an Eclipse of the Sun on the 8th of July, at 2h. 5m. in the morning, invisible here. This Eclipse will pass central and total through Europe and Asia. It will be visible in every part of Europe, and in almost every part of Asia. It will be visible also in Greenland, in Egypt, and in the Island of Borneo. It will be central and total on the meridian in longitude $77^{\circ} 27'$ east from Greenwich, and latitude $5b^{\circ} 47'$ north.

Magnitude at	{	Greenwich,	9 61	}	digits on the Sun's southern limb.
		Edinburgh,	8 24		
		Dublin,	8 53		

IV. There will be an Eclipse of the Moon on the 22d July, at 6h. 1m, in the morning, invisible. The Moon will set at New York about two minutes before the beginning of the Eclipse. At Natchez this Eclipse will be chiefly visible.

V. There will be an Eclipse of the Sun on the 31st of December, at 2h. 6m. in the afternoon, invisible to us.

This Eclipse will be visible throughout South America, and in the surrounding waters including most of the South Pacific Ocean, and a Part of the Great Southern Ocean, extending to 72° of south latitude. The central eclipse (which will be annular) will commence near Tongataboo, among the friendly Islands, and sweeping a southern curve which passes to the eastward, will strike the continent nearly in the same latitude. It will pass through South America from near Arequipa, crossing the Southern branches of the Amazon, to the Atlantic near the mouth of that River; and will leave the earth at a point 300 and a half miles north of the Equator in longitude $42^{\circ} 55'$ west from Greenwich.

A Cough.—Mix six ounces of good honey, with a pint of old rum, and take a tea-spoonfull whenever the cough begins to be troublesome.

Cure for Diarrhæa.—A table spoonful of vinegar, and a tea spoonful of salt, mixed in a glass of warm water. If relief be not afforded in the course of ten or fifteen minutes, a repetition of the dose will assuredly prove effectual.

3 MARCH, Begins on Tuesday, 31 days 1842.

Consumption—The best remedy for this complaint, is, to boil good vinegar, and pour it hot on good loaf sugar to the consistency of cream, and take a spoonful often; but if the person is apt to be costive, then good moist sugar instead of loaf. The best drink for this complaint is warm barley water or new milk.

Hysterics.—Get a little antimonial wine down the the throat, so as to cause vomiting; this puts an eud to the fits. A purge should be taken, as soon as the emetic has operated, and the feet bathed in warm water. The cold bath is the best preventive to this complaint.
